Mission
The JAOA’s mission is to serve as an international forum for the dissemination of scientific literature that incorporates an integrative, comprehensive, patient-centered approach to clinical care and improving health.

Content
The JAOA publishes original investigations, current reviews and meta-analyses with expert critical viewpoints, and didactic discourses in a wide variety of clinical fields. The JAOA is particularly interested in research articles that reflect osteopathic medicine’s traditional emphasis on the role of the musculoskeletal system in health and disease. The Journal also publishes medical education and special communication articles, as well as other clinically relevant pieces. Articles and letters on controversial topics may—at the editor in chief’s discretion—be published in the JAOA, provided that all sources are clearly identified.

ISSUANCE
Published monthly since 1901. Mailed the 5th of the month.

EDITORIAL CONTENT
The Journal of the American Osteopathic Association (JAOA) is the osteopathic medical profession’s leading peer-reviewed scientific journal. It publishes articles by osteopathic physicians and other scientists on research, evidence-based osteopathic medicine, clinical practice, and medical education.

Most issues of the JAOA provide two AOA Category 1-B credits to DOs who pass the JAOA’s CME quizzes. DOs who do not take the quizzes can earn 0.5 AOA Category 2-B credits for each issue they inform the AOA they have read.

The JAOA is indexed by the National Library of Medicine. Its editorial acceptance rate is approximately 50%. Special issue annually: Education (April).
